

To patients who are hospitalized due to COVID-19

Please refer to “Hospitalization → Admission Procedures and Personal Belongings” page on our website to prepare for your hospitalization.

For visitors and hospital stay, please read the following different instructions from our website.

Visitors

- No visitors allow. Please make contact with the patient’s attendant by mobile phone.
- We can help to receive the luggage from the patients’ families. Please call us when arriving at the hospital parking area. We can accept the luggage at our after-hours entrance.

Available Time: 11:00 – 17:00 Place: After-hours entrance

TEL: 0279-52-3551 (Please ask an operator to connect with the Ward No.1)

- Only the patients’ attendants during hospitalization are allowed to enter the hospital.

Hospital Stay

- We prohibit the attendants from going outside the patient's room until the discharging day.
- Pregnant women are not allowed to attend the patients in principle.
- One attendant only.
- The attendants need to bring their personal belongings (toiletries, shampoo, clothes, towels) and face masks wearing in the hospital.
- Please do not bring any self-made meals and raw fish. Our nutrition division will supply the attendants with meals. Please prepare for own beverages. Eating and drinking in the patients' rooms are allowed. Please bring the feeding bottles and the sterilization supplies from home if the children drink formula.
- The attendants can take a shower in the room. The attendants also can take a shower with their children. We can rent out some clothes and towels for children if necessary (JPY160/day for towels, JPY120/day for pajamas, JPY340/day for SS - L size diapers, and JPY510/day for big size diapers).
- Please wash clothes and towels brought from home at their own house.
- TV and DVD are free to use.
- The attendants can use a portable bed (free of charge).
- Please bring the Maternal and Child Health Handbook, insurance card, and welfare and medical ticket when hospitalization.

Patient's room

The patient's room is a private room furnished with a shower, toilet, sink, TV, DVD player, small refrigerator, bed, and chair. The layout may change from the photos depending on rooms.

10:00 Tea time

Measuring temperature The attendants record the patients' temperature and conditions

12:00 Lunch

15:00 Tea time

16:00

17:00 Measuring temperature The attendants record the patients' temperature and conditions

18:00 Supper

20:00 Lights-out (turn the light off)

22:00

0:00

1:00

Our nurses go to the patient's room. Please let them know how the patient was during night and the attendant's health conditions.

Our nurses are working in shift.
They visit the patient's room when they start their shift.
They may disturb you when you are sleeping because they need to check the patient's conditions in the night.
